GLEAM CHEMICALS AUSTRALIA

Gleam Chemicals Australia delivers reliable, high-performance cleaning, consumables, and dispensing solutions tailored to the hospitality industry. Our focus is simple: improve operational efficiency, reduce costs, and maintain the highest standards across your venues.

We supply a complete range of professional-grade chemicals, paper products, packaging, and consumables, supported by colour-coded systems that make compliance, safety, and staff training seamless.

To maximise efficiency and minimise waste, we install advanced chemical dispensing systems at no cost. These systems ensure precise dilution every time, reducing overuse, lowering spend, and improving consistency across all sites. We also support your operation with ongoing equipment maintenance, including dishwasher descaling and performance maintenance, to ensure your equipment operates at its best.

What sets Gleam apart is our service. You'll have a dedicated account manager with hospitality experience providing regular site visits, hands-on staff training, and proactive support.

Commercially, we offer competitive pricing backed by a 12-month price stability guarantee, giving you confidence and cost control in an unpredictable market.

We also help you meet your sustainability goals through container recycling programs and full GHS-compliant systems that protect both your team and the environment.

Gleam combines products, equipment, and service into one streamlined solution, trusted by leading hospitality venues. We deliver consistency, accountability, and measurable value across every site.

We look forward to partnering with you to create a cleaner, safer, and more efficient operation.
